

TOP TRAFFIC INTERCHANGES

for the Omaha Metropolitan Area

The background of the entire page is a light gray map of the Omaha Metropolitan Area. It shows a network of roads and highways. A prominent feature is a large, complex interchange in the upper right quadrant, which is highlighted with a darker gray outline. The map also shows several other roads and highways, some of which are highlighted with a darker gray outline. The year "2016" is printed in large, light gray numbers across the bottom of the page, partially overlapping the text of the Metropolitan Area Planning Agency.

Introduction and Methodology

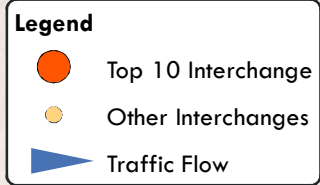

2016 Top Traffic Interchanges in the Omaha/Council Bluffs Metropolitan Area

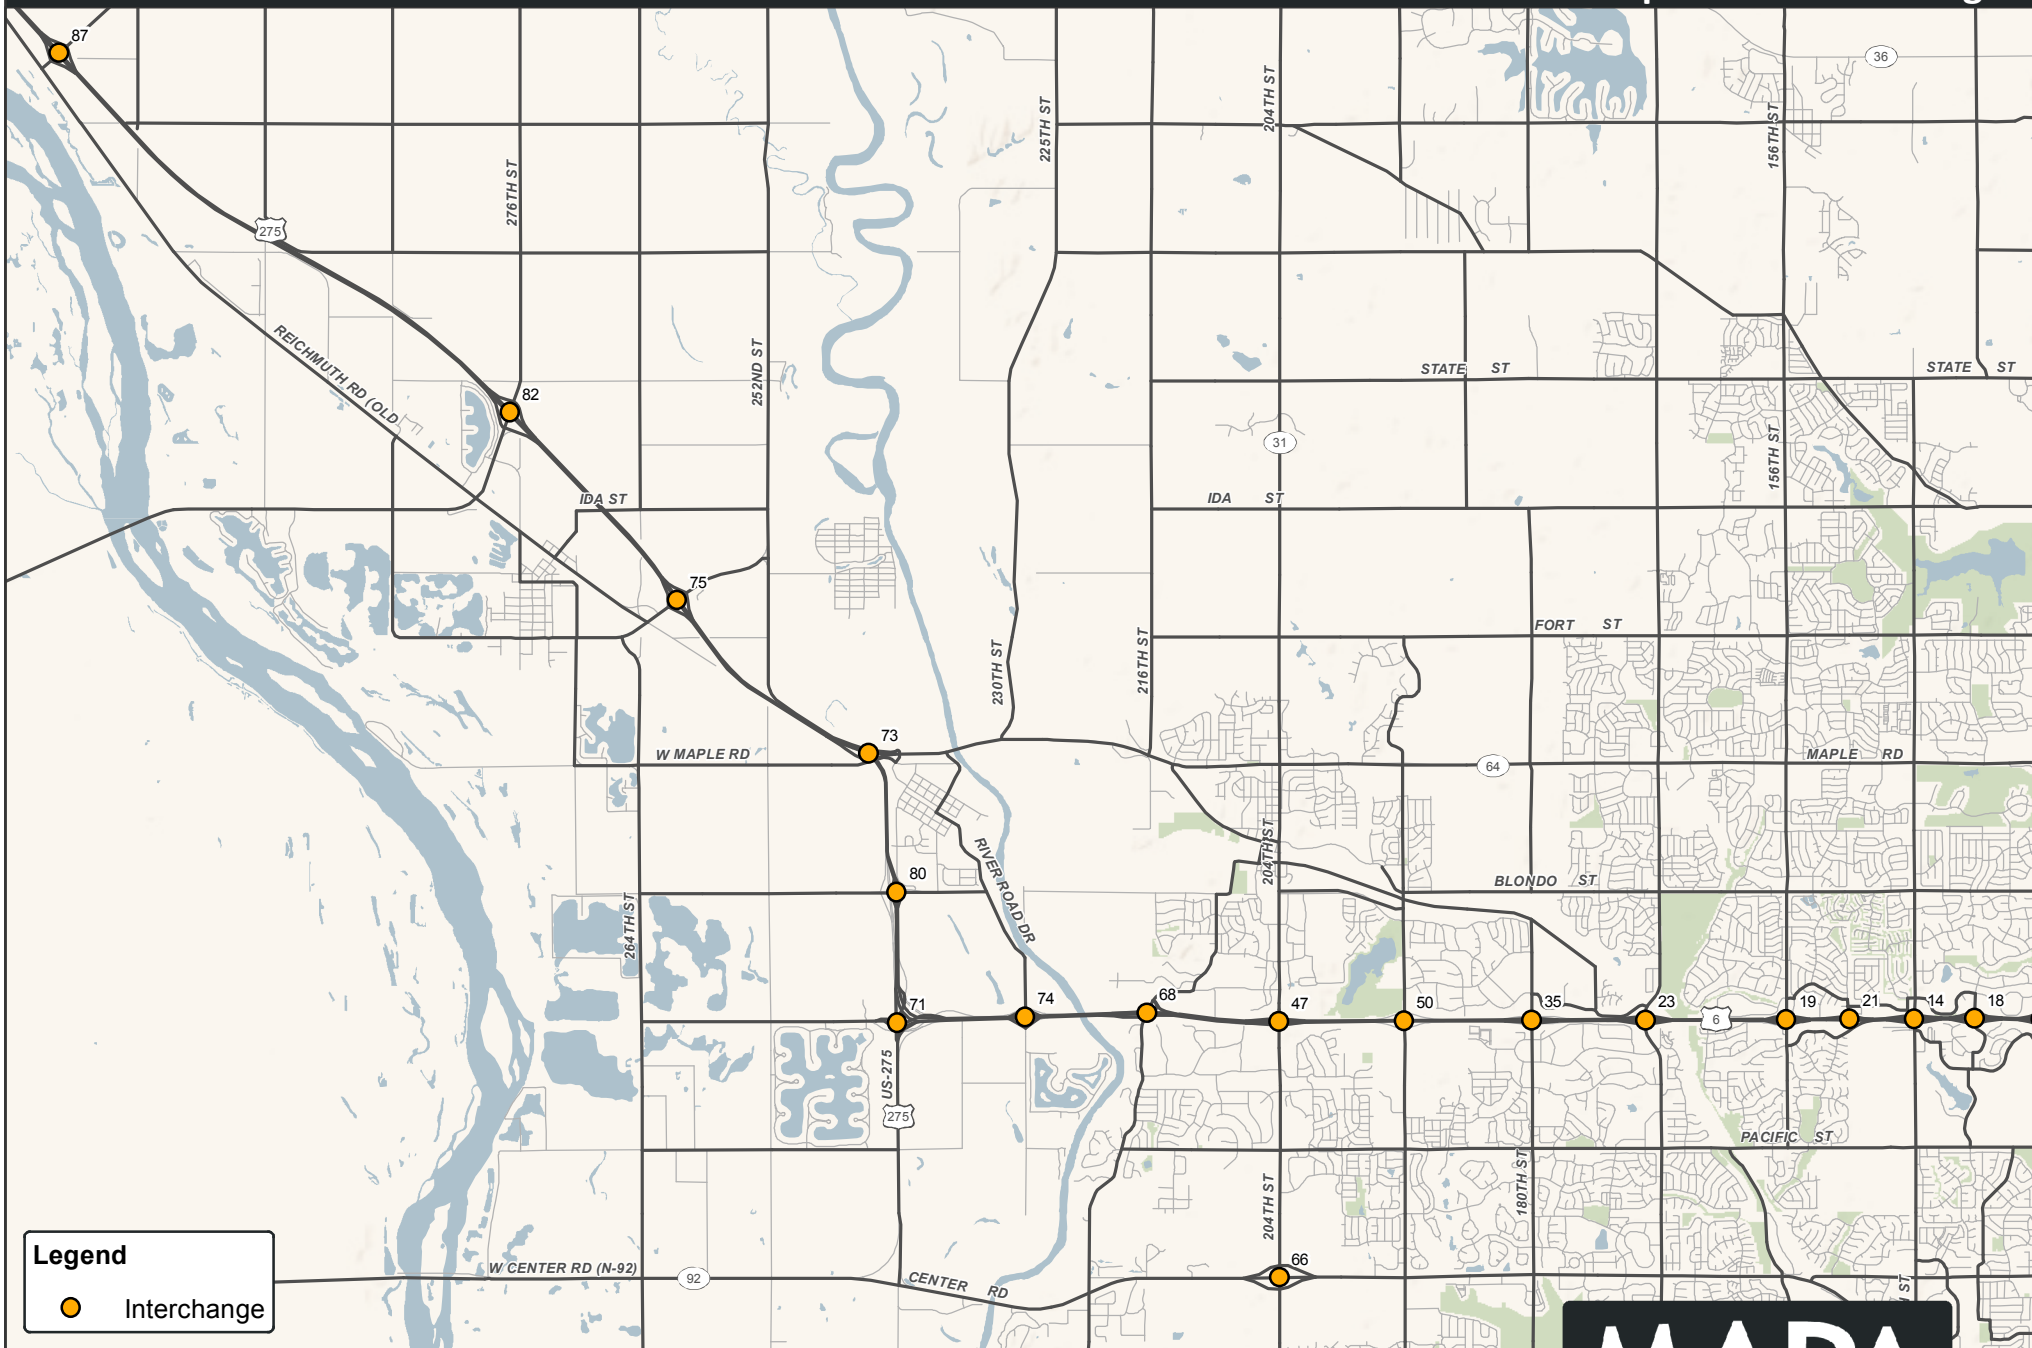

The Top Traffic Interchanges report is a biennial publication of the Metropolitan Area Planning Agency (MAPA) as part of its on-going transportation planning process. The report is produced in conjunction with the *Traffic Flow Map*, the *Traffic Growth Report* and the *Top Traffic Intersections Report*. The top traffic interchanges listed in this publication are based on data compiled by MAPA in cooperation with local, state and federal agencies.¹ This data represents actual or derived Annual Average Weekday Traffic (AAWT) for the Omaha–Council Bluffs metropolitan area.

This report is for *interchanges* only and, therefore, does not include information for *intersections*. Locations such as 72nd and “L” Street, Saddle Creek Road and Dodge Street, and 72nd Street and West Center Road that do not have an at-grade crossing are considered interchanges and are included in this report. For information regarding intersections please consult the MAPA Top Intersection reports.

The report begins with maps graphically representing the interchange rankings from a sub-regional perspective. Following the maps is a ranked listing of the metropolitan area’s ninety-one interchanges in 2016. These interchanges have been ranked based on total vehicle volumes, which are calculated by totaling the traffic counts from each leg of the interchange and dividing by two. The rankings list the counts for each leg of the interchange and the interchange total in descending order for the region.

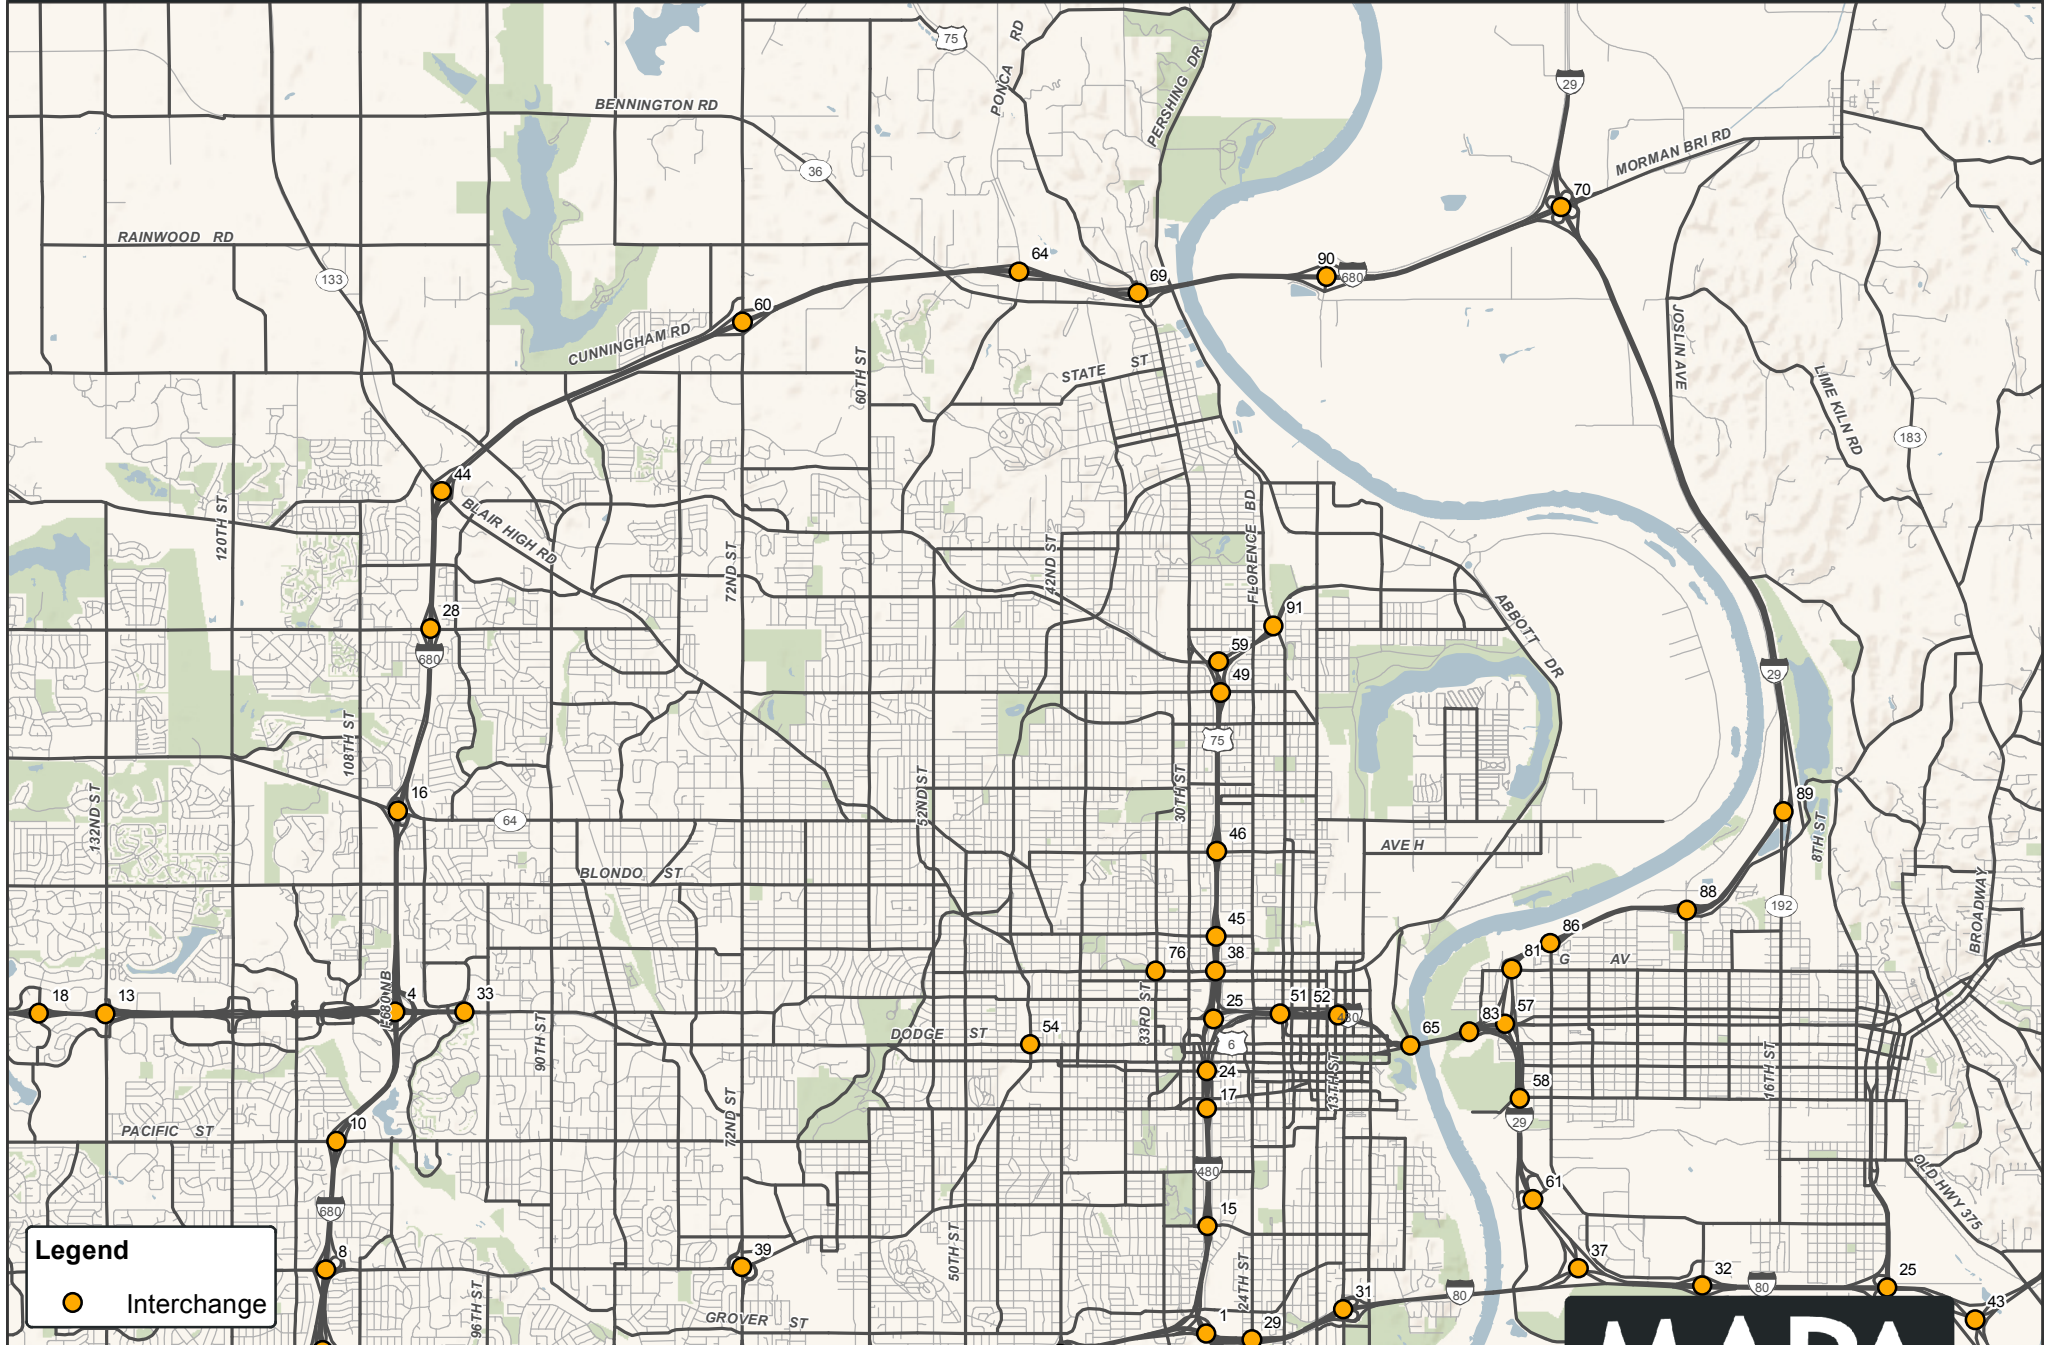

¹ Cities of Bellevue, Council Bluffs, La Vista, Omaha, Papillion; Counties of Douglas, Pottawattamie, Sarpy; Iowa DOT, NDOR.
