

La Vista Bicycle & Pedestrian Mobility Plan

The overall project objective is to produce a comprehensive bicycle and pedestrian mobility plan to guide the planning and construction of trails, sidewalks, and associated facilities in La Vista to create additional opportunities for residents and visitors for recreation, access to employment and services, and economic development generation. This plan shall 1) identify barriers that prevent La Vista residents and visitors from using alternative modes of transportation, including the identification of current gaps in La Vista’s sidewalk and trail networks, 2) propose a framework and standards for the creation of a balanced and integrated cyclist and pedestrian mobility network, 3) establish priority segment phasing and cost estimates for infrastructure and capital projects, and 4) identify other strategies for the financing, construction, and maintenance of such facilities. This plan is a necessary first step in the establishment of a connected, safe, and efficient multi-modal transportation system, and La Vista’s ability to establish connections with the regional trail system.

AGENCY: City of La Vista

PROJECT TYPE:
Planning

TOTAL PROJECT COST: \$100,000

THE FEDERAL PORTION: \$80,000

LOCAL MATCH: \$20,000
