

River Road Drive Improvements in Waterloo

Reconstruction of River Road Drive would remove the existing rural section roadway and replace it with a new concrete roadway. The east side will maintain the rural section and the west side (mostly residential) will be converted to an urban section. The curb section is being added to the west side to provide separation and protection for the sidewalk at that location. The existing sidewalk will be removed and replaced as needed to maintain pedestrian access to the area. Storm sewer will be added to pick up storm water along the roadway and the existing ditch on the east side will be cleaned out/rebuilt to improve drainage and reduce standing water.

AGENCY: Village of Waterloo

PROJECT TYPE:
System Preservation

TOTAL PROJECT COST: \$1,850,000

THE FEDERAL PORTION: \$1,480,000

LOCAL MATCH: \$370,000
