Metro Area Motorist Assist Program  
**2014 Annual Statistical Report**

**Table of Contents**

i. Introduction .....	i-iii
ii. Report Maps .....	iv-vi

*Data Appendix:*

A. Total Assists by Roadway .....	1
B. Total Assists by Assist Type .....	2
C. Total Assists by Time of Day & State of Origin .....	3
D. Total Assists by Day of the Week .....	4
E. Total Assists by Freeway Segment.....	5-7
F. Ranking of Segments by Total Number of Assists.....	8-10
G. Total Assists by Year .....	11-13
H. Total Assists by Freeway Segment by Year .....	14-22
I. Volunteer Service & Relative Cost Savings .....	23-25

# Metro Area Motorist Assist Program

## 2014 Annual Statistical Report

### Introduction

#### Program Background

The Metro Area Motorist Assist (MAMA) Program is an innovative, award-winning volunteer program designed to provide assistance to motorists on the freeway system in the Omaha/Council Bluffs area. The program is administered by the Metropolitan Area Planning Agency (MAPA) in coordination with the Nebraska State Patrol.

Volunteers of the program are trained by the Nebraska State Patrol and operate three well-equipped, well-marked emergency vans during the morning and evening peak periods. During these times, the MAMA Program Vans patrol I-80 from the Platte River into Council Bluffs, I-29 from Highway 275 into Council Bluffs, I-680 from the Missouri River to I-80, I-480, and the North and Kennedy Freeways in Omaha.

MAMA volunteers provide a variety of services to the motoring public including: automotive fluids (such as fuel and oil), helping with flat tires, providing jump starts, providing directions, arranging to have vehicles towed, and clearing debris from driving lanes.

By providing emergency assistance to motorists in the Omaha-Council Bluffs region, volunteers of the MAMA Program play an important role in reducing traffic congestion created by these kinds of incidents. Additionally, by removing debris from the freeway system, MAMA Program volunteers help reduce the potential for traffic crashes along the freeway system. Because of the service of MAMA Program volunteers, law enforcement officers are able to concentrate on serious enforcement needs and emergencies.

Since the MAMA Program began in April of 1998, more than 70 volunteers have dedicated nearly 120,000 hours of service. Based on an analysis in this report, these volunteers have saved the States of Nebraska and Iowa over \$188,000.

#### About This Report

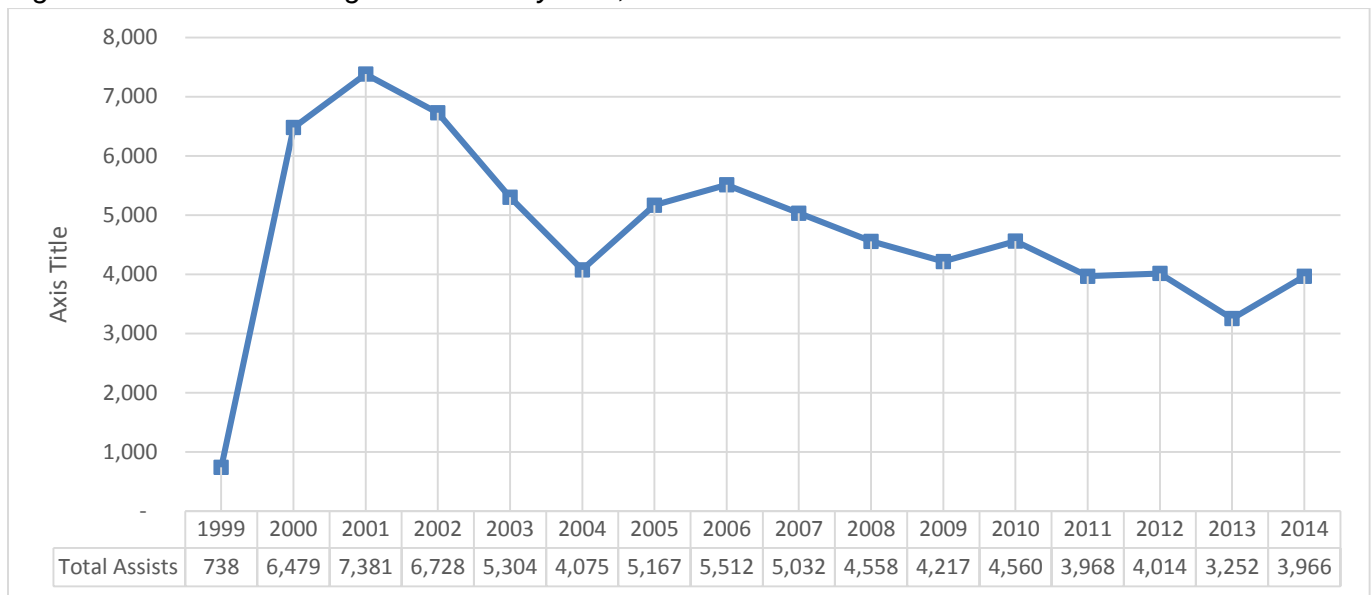

Each year, the Metropolitan Area Planning Agency (MAPA) develops two reports for the MAMA program. This report, the Metro Area Motorist Assist Statistical Report, is compiled in September and February each year. The MAMA Statistical Report includes information about the number and location of assists throughout the metropolitan area and the relative value of that service.

Three maps are included within this report as well. Map 1 illustrates the number of assists per mile along each roadway segment for the year 2014. Map 2 illustrates the average number of assists along each segment of the freeway system in the Omaha Council-Bluffs region since the MAMA Program's inception. Map 3 shows the density of assists (Total Assists/Miles) of each segment of the freeway system since the program's inception as well.

## Conclusion

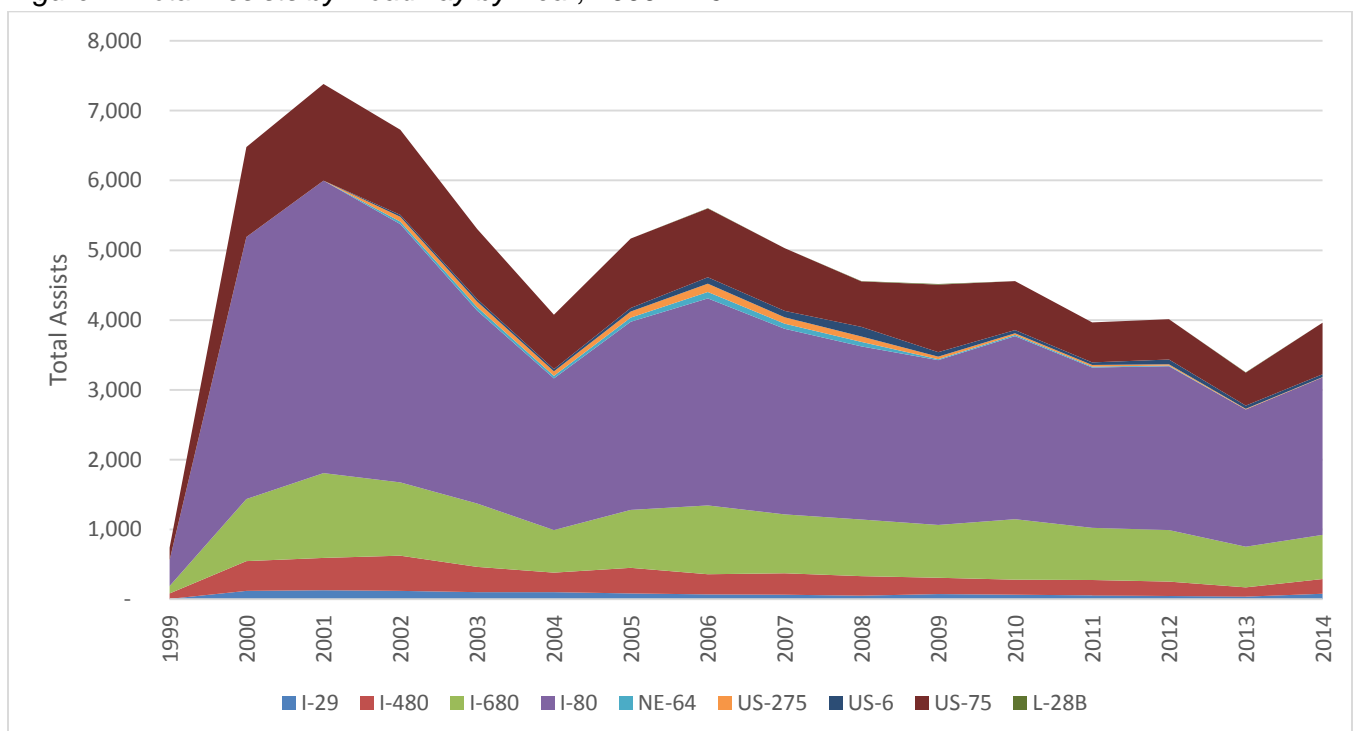

The Metro Area Motorist Assist (MAMA) Program continues to demonstrate its value to the Omaha-Council Bluffs region. With average annual cost-savings of over \$12,500, the MAMA Program provides a significant benefit to citizens in the states of Iowa and Nebraska. These cost-savings are realized through the 4,000 to 5,000 assists that program makes in an average year. Figure 1 illustrates the total assists per year since the program's inception. Figure 2 illustrates the total number of assists per year for roadways served by the MAMA program.

*Figure 1: Total MAMA Program Assists by Year, 1999 - 2014*

*Chart Note: The MAMA Program began in 1998, but data collection began late in 1999*

*Figure 2: Total Assists by Roadway by Year, 1999 – 2014*

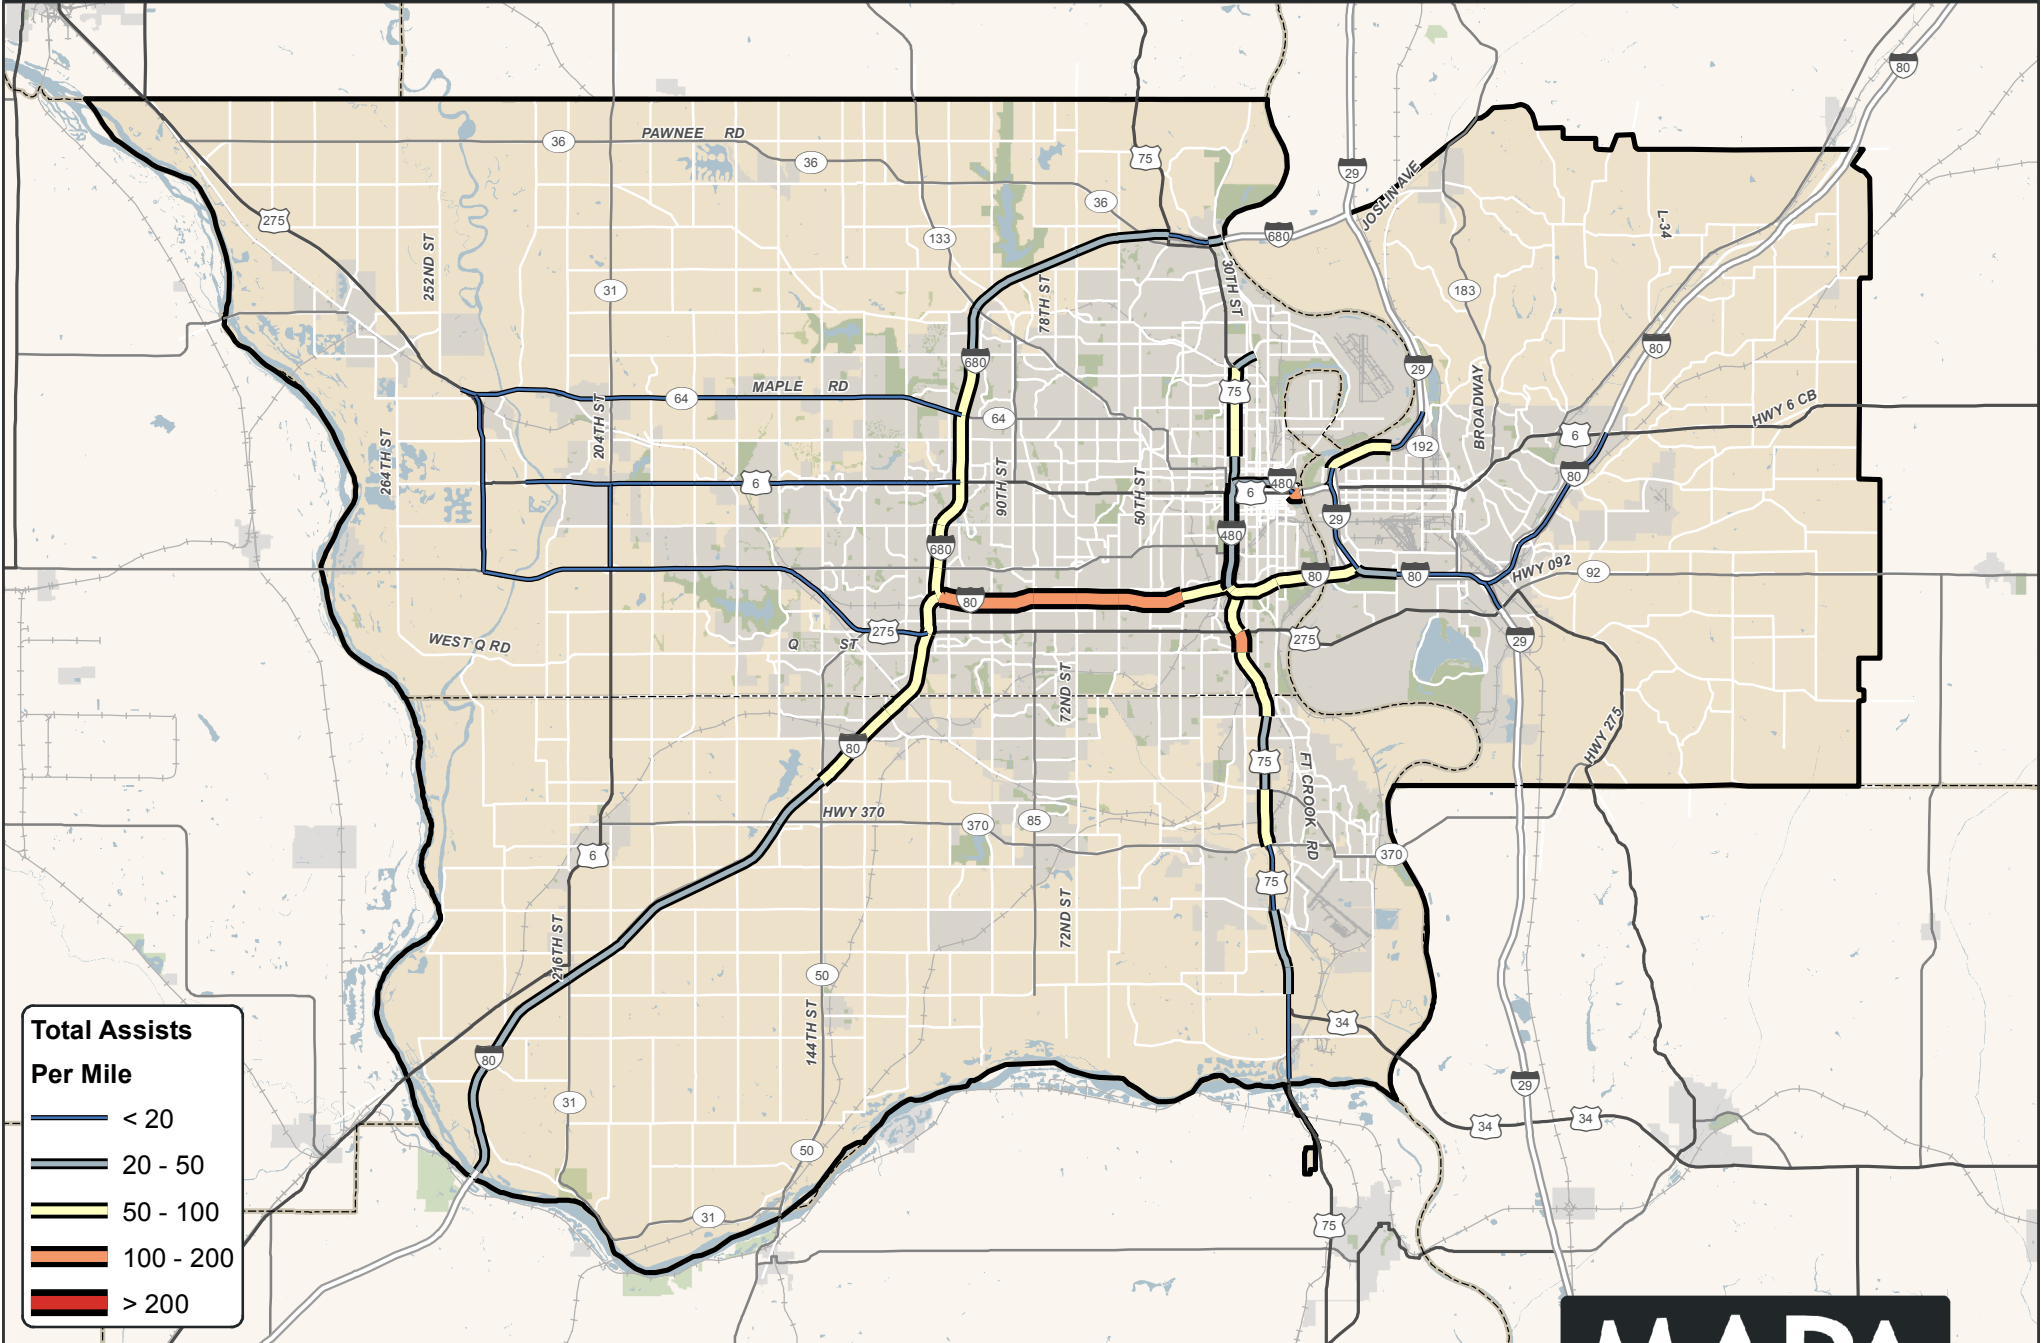

*Chart Note: The MAMA Program began in 1998, but data collection began late in 1999*

Similar programs in other metropolitan areas cost hundreds of thousands of dollars annually and employ full or part-time law enforcement officers to provide a similar service. The unique, volunteer nature of the MAMA program provides cost savings to taxpayers and reduces the burden on law enforcement officers in the Omaha-Council Bluffs region. The assistance provided by volunteers of the MAMA Program make the freeways in the metropolitan area safer and ensures that high-level of customer service is maintained for the motoring public.

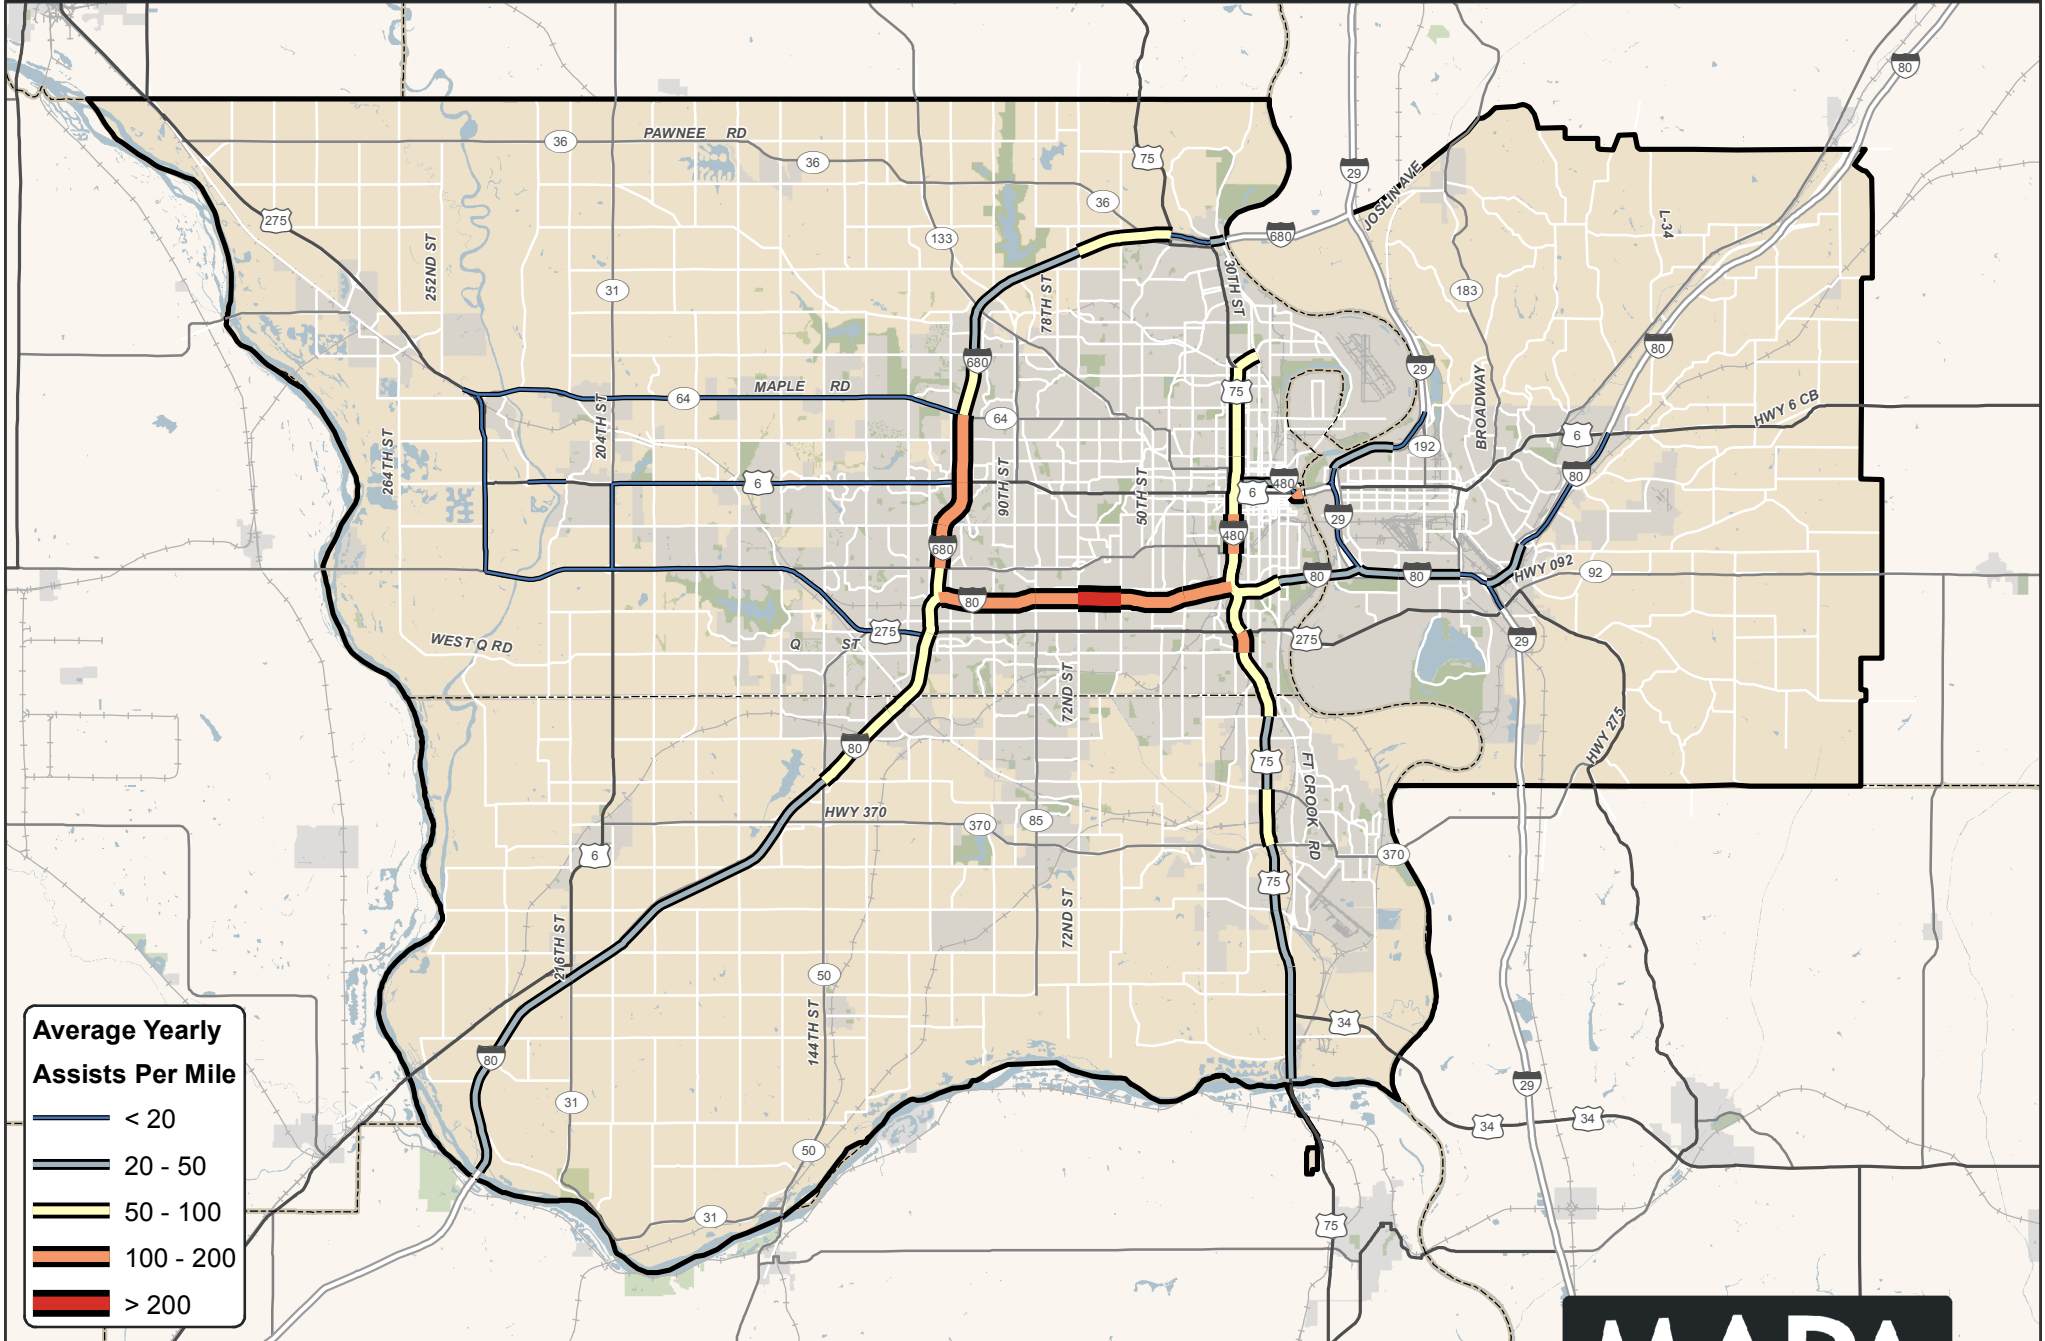

## Total Assists Per Mile (2014)

# MAMA Report

A scale bar with markings at 0, 3, 6, and 12 miles. The bar is white with black markings and the word "Miles" at the right end.

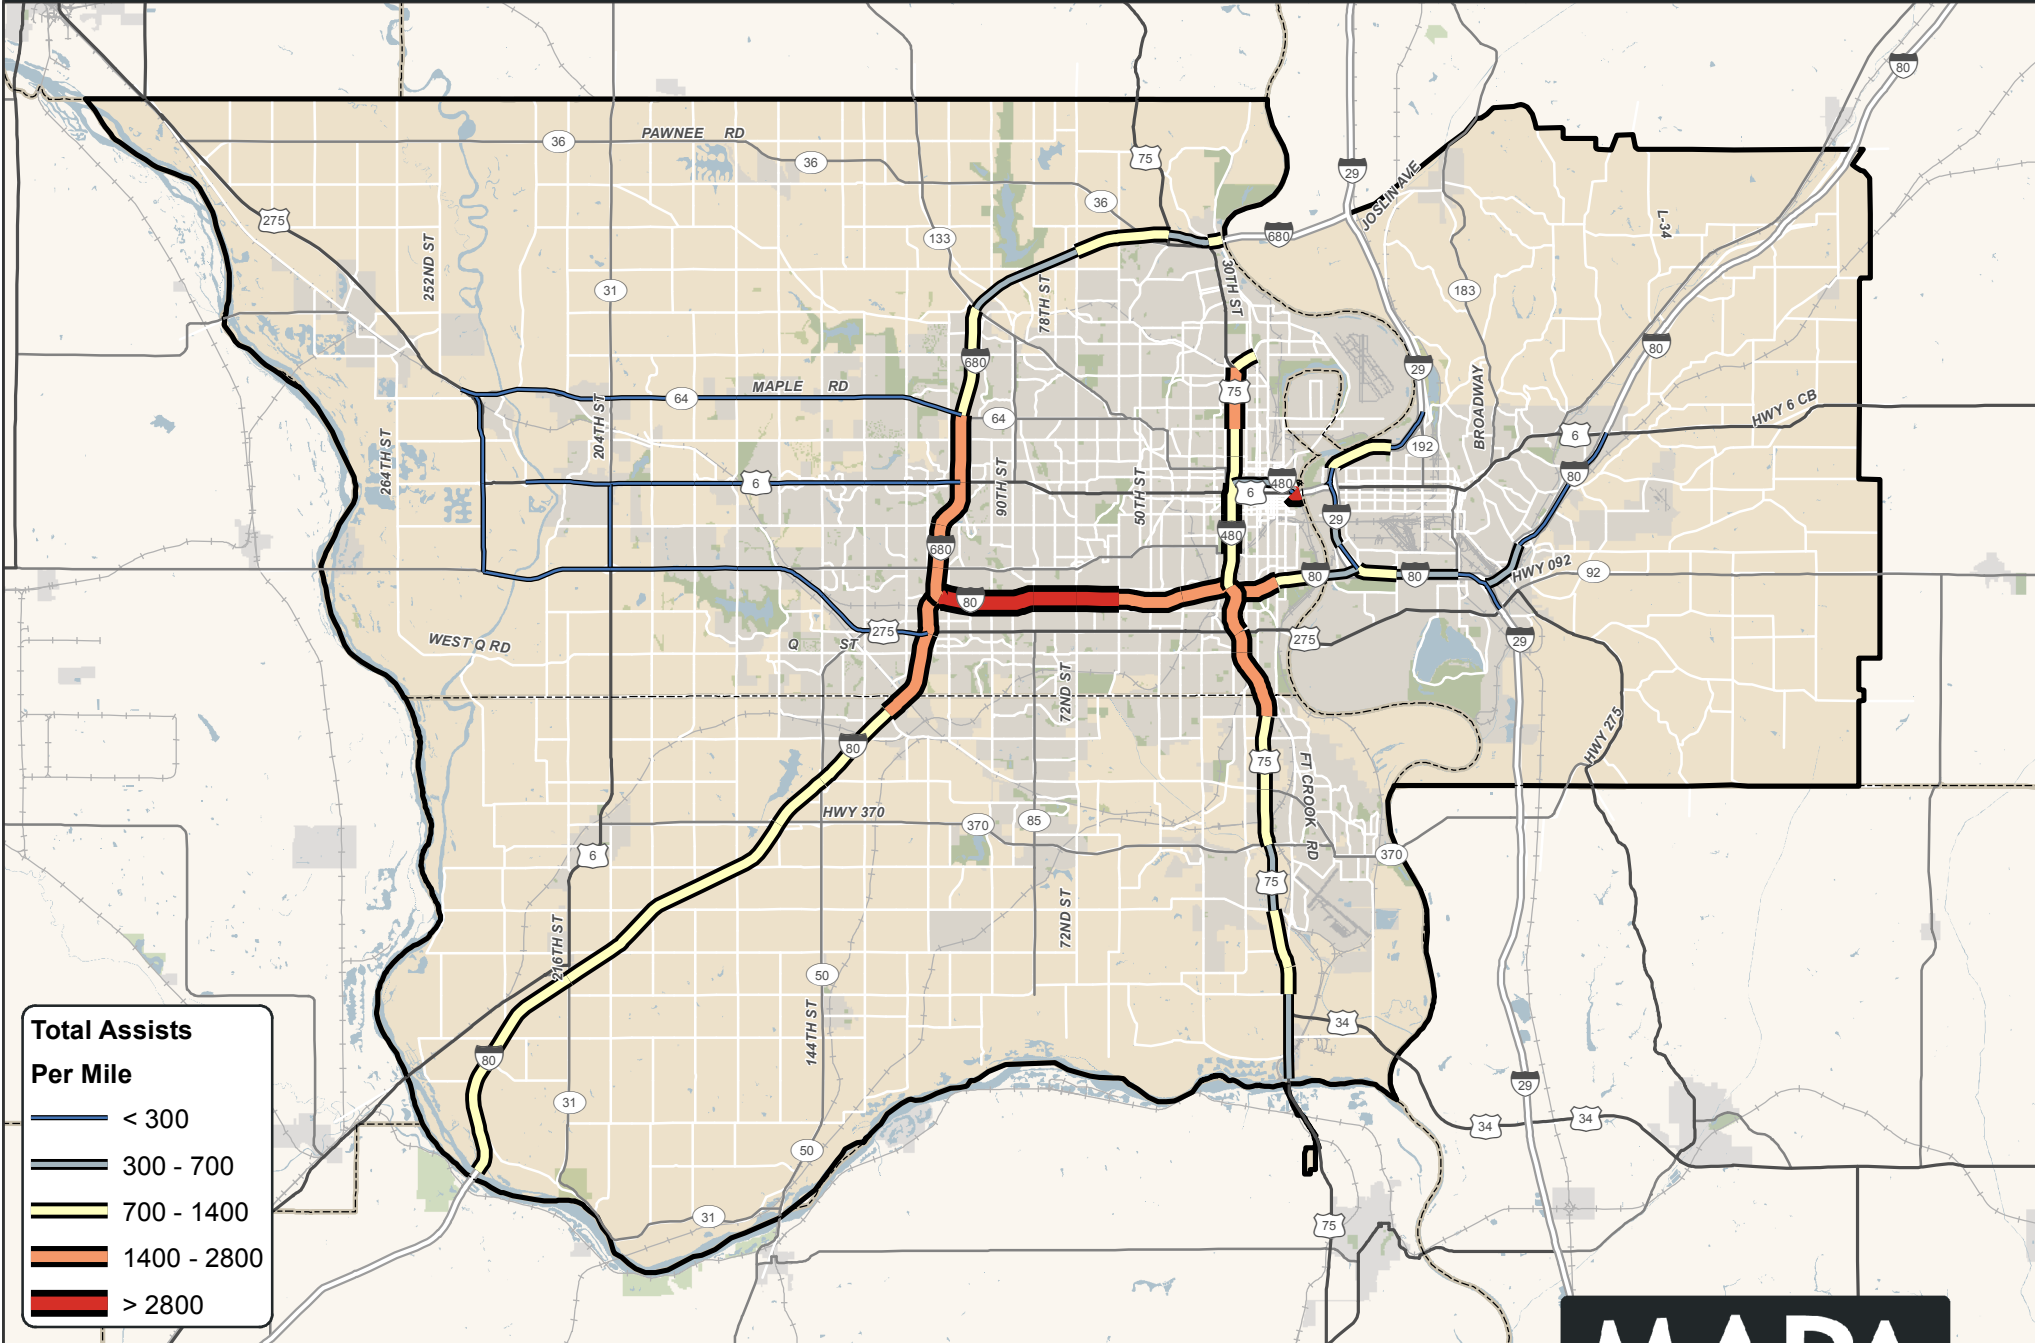

**Average Yearly Assists Per Mile**

- < 20
- 20 - 50
- 50 - 100
- 100 - 200
- > 200

## Total Assists Per Mile (1999 - Present)

# MAMA Report

A horizontal scale bar with a black background and white markings. The markings are labeled 0, 3, 6, and 12. Below the bar, there are two thick black rectangular segments. The word "Miles" is written in white at the right end of the bar.

# Metro Area Motorist Assist Statistical Report

## Total Assists in the Metro Area

**Thursday, November 18, 1999** through **Wednesday, December 31, 2014**

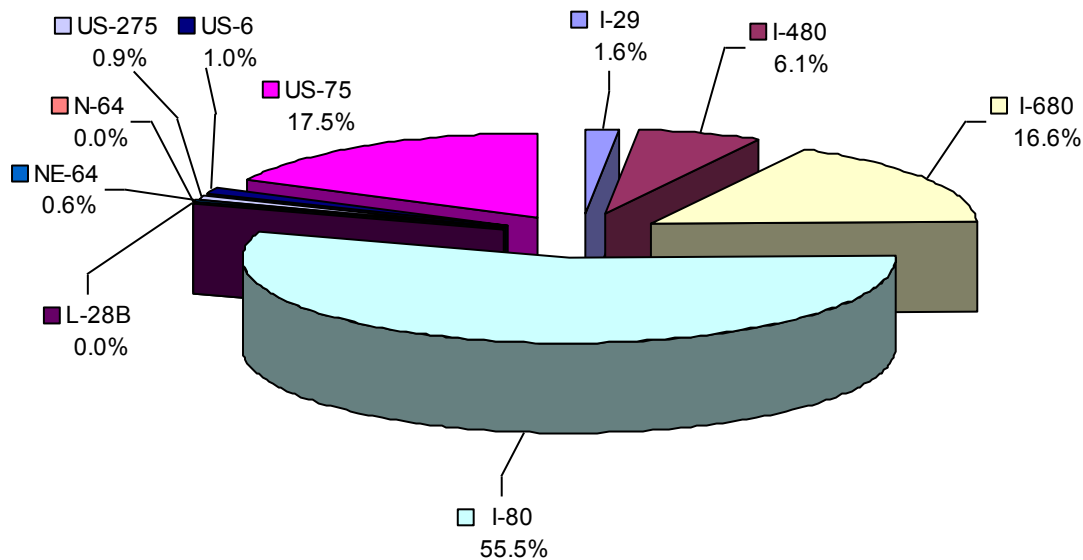

74,995

Note: Program initiated in July, 1998 but statistics were not collected until November, 1999. Assists from July, 1998 to November, 1999 are estimated to be 10,000.
