A. Approval of Minutes

Motion #1: Approval of the minutes of the August 21, 2015 Transportation Technical Advisory Committee Meeting.

Motion by: Curt Simon
Second by: Greg Reeder
Motion Carried

B. Funding Obligation and Project Status

Mr. Felschow said there was an August balance of nearly \$12.9 million for STP in Nebraska with a large amount of funds that have not been spent for FY 2015. \$6 to 8 million of that has been programmed in FY 2016 that was approved in the TIP and will become active next month. The balance of that \$5 to \$6 million is what's not been spent and will have to be OA transferred to next year. The bridge at 42nd and Q Streets is likely to be ready and that will be \$3.2 million in federal funding so the balance will be down to around \$2 million. NDOR will let MAPA know in October or November which year the funding will be received which, in turn, could require a TIP adjustment to be made. If NDOR allows for an OA transfer in FY 2016, the fiscal constraint will be okay. If the money is received in FY 2018, some projects may have to be shifted but funds will still remain around \$400,000. If the funds are not received until FY 2020, there will be a balance of just over \$ - 5,500 million. These are suggested scenarios and probably will not happen. Mr. Felschow pointed out some projects have been in implementation for two years which may need to be shifted out in years.

C. MTIS Presentation

Mr. Felschow presented an overview of MTIS – Metro Area Travel Improvement Study. It's comprised of

- Executive Committee;
- Management Team;
- Technical/Stakeholder Committee; and
- Consultant Team.

Their goal areas consist of

- System Preservation;
- Congestion Reduction;
- Mobility and Accessibility;
- Stewardship and Environment; and
- Safety.

The study area is concentrated on the metro area in Nebraska but does include Council Bluffs.

The 3-Phased Approach is

- Existing/No-Build Conditions Review;
- Strategy/Alternative Development and Evaluation; and
- Alternatives Design and Implementation Plan.

Elements Evaluated are

- Freeway System Geometry;
- Physical Conditions;
- Traffic Operations;
- Safety;
- Transit Facilities and Service; and
- Pedestrian/Bicycle Facilities and Service.

Mr. Felschow addressed the Committee about existing conditions and forecasts until 2040.

Discussion followed about bicycle level of service (BLOS). Mr. Felschow reminded TTAC that BLOS is more of a sensitivity test and a barrier breaking test.

D. Platteview Road Presentation

Ms. Walker said the Platteview Corridor Public Meeting was held August 31, 2015 at the Papillion-LaVista High School where over 250 people attended. The meeting was held in conjunction with the Sarpy County Comprehensive Plan meeting. An arterial alternative was presented to the public along with three expressway alternatives. A final draft of the plan is expected in November or December.

Among the public comments were

- Concerns about the right of way for the alternatives and impacts to land;
- Congestion on Platteview Road and Hwy 370; and
- Cost.

E. 2050 Long Range Transportation Plan (LRTP)

Mr. Helgeson presented the 2050 LRTP. Over the next year, MTIS will be looking at pulling together the various studies as a key part of the Plan. Some of the studies being looked at in the process are the Regional Transit Vision, Heartland-2050 and the Pottawattamie County Plan. There will be community outreach beginning in the fall 2015. It will then go to draft form in the fall 2016 with scenario development and lastly to the final draft in the spring 2017.

F. Transportation Activities

Ms. Walker updated the Committee on transportation activities. Those discussed were

- Little Steps Big Impact Program – grant process
- EV Meeting – grant process
- 5310 Vehicle Purchase – NDOR / IDOT
- Transportation Improvement Program – criteria improvements

G. Subcommittee Report Back

Ms. Myers updated the Committee on its subcommittees.

- Citizens' Advisory Council (CAC)
 - Recent discussions about the 2050 LRTP public involvement strategies.
- Coordinated Transit Committee (CTC)
 - Recent discussions about the 5310 project selection criteria;
 - Completed informal coordination activity; and
 - Discussion on the progress of the call center project and released RFQ.

H. Additional Business

Mr. Youell said the EPA will announce no later than October 1st what the new ozone standard will be. Currently the region is around 67 ppb and it's anticipated it will be set between 65 and 70. Mr. Felschow told the Committee that TIP amendments will become more difficult if we are in nonattainment with the new settings.

I. Adjournment

Motion #2: Motion to adjourn:

Motion by: Scott Suhr
Second by: Noel Salac
Motion Carried

The meeting was adjourned at 11:01 a.m.
