Progress Report – Omaha Transit ROI Study

Month: July, 2018

Work Completed This Month:

- Finalization of Stakeholder Committee Membership
- Scheduling and coordination for Stakeholder Committee Meeting #1
- Continued monitoring of data collection status

Work Underway for Progress Next Month:

- Preparation and completion of Aug 21 Stakeholder Committee Meeting #1 including development of slides material and discussion questions
- Commence next round interviews
- Review and begin processing data received from Metro Transit
- Expected receipt of 2015 update base model data from MAPA for use in analysis leading into Stakeholder Committee Meeting #2

Known Delays Affecting Project Work:

MAPA is in the process of updating the Travel Demand Model, including both current and future year land use information. Per discussion with Josh Corrigan (8/16), MAPA has updated the land use assumptions and they have been sent to localities for review, for response by 8/24. After that, MAPA will run their model to get updated baseline conditions (e.g. impedance skims, trip tables, etc.). The earliest that baseline conditions will be available would be the end of August.

While EDR Group will begin setting up the analyses and working with other data, the full evaluation of the current role of transit is contingent on receiving the baseline model data. This means that the schedule for Meeting #2 is also contingent on this process. We recommend reevaluating the meeting #2 schedule in 2 weeks when 2015 model data is expected to become available.

Similarly, meeting #3 will be contingent on MAPA defining and running future scenarios in the model that serve as key input to the transit futures analysis. EDR Group will begin discussions now of desired scenarios to help get ahead of that process.

Comments Regarding Schedule and Work Plan

EDR Group has identified a tentative schedule to present to stakeholders at Meeting #1. However, this schedule is contingent on receiving model data.

Regarding the Sarpy County transit event, we have agreed that MAPA will continue planning this independent of the ROI study schedule, but that Steve Wolf can be available as part of the public outreach efforts to briefly introduce the ROI study at the event. EDR Group, MAPA, and JEO will coordinate to develop the right content/messaging for this.

- D. In the event of failure of agreement between NDOT and the Contractor relative to the publication of any reports during the period of the Agreement, each party reserves the right to publish independently, in which event the nonoccurrence of the other party shall be set forth, if requested.

- E. Both written and oral releases are considered to be within the context of publication. However, there is no intention to limit discussion of the study with participants in the Transportation Planning Program, small technical groups or lectures to employees or students. Lectures to other groups which describe the plans are permissible.
- F. Neither party shall publish nor otherwise disclose, nor permit to be disclosed or published, the results of the investigation herein contemplated, during the period of the Agreement, without notifying the other party.

Key Product Features of Financial Edge NXT™

Financial Edge NXT is a comprehensive financial management solution built specifically to meet the needs of nonprofits and government entities. Powerful accounting features empower nonprofit finance staff members with the transparency, flexibility, and intelligence they need to improve efficiency and drive results.

Core Fund Accounting

General Ledger

Built exclusively for nonprofits and government entities, Financial Edge NXT's flexible General Ledger structure can manage your complex reporting requirements, even for the most challenging stakeholders. Designed over decades of working with nonprofit accountants, Blackbaud uses a combination of powerful tools—from account segments to transaction characteristics—to deliver an experience that's tailored to your unique business processes while providing control and simplicity that commercial systems can't offer.

As the core component of Financial Edge NXT, all transactions flow from other modules into the General Ledger's accounts and projects. Our General Ledger design allows you to easily report from multiple perspectives while maintaining a clean chart of accounts, implement strong internal controls, and seamlessly adapt to changing funder requirements with best-in-class reporting design.

Allocation Management

Automatically allocate amounts by account, account attribute, project, project attribute, transaction code, and transaction attribute. Allocation Management provides mechanisms for both direct and indirect allocations, as well as reallocations based on ending balances, average daily balances, or net change balances—eliminating the need for external spreadsheets that have no built-in validation.

Advanced Security

Set full security on accounts, projects, reports, queries, and more. Your system administrator or staff member with supervisor security rights can give or deny user rights to specific information so it does not appear on an unauthorized user's search screen or in any reports that user creates. With Advanced Security, you can easily and securely share performance information with non-financial read-only users.

Budget Management

Budget years into the future so your organization can prioritize its expenditures, assess its funding needs, and make comparisons across fiscal years. You can configure project-level budgets to automatically change existing account budgets and create multiple "what if" budget scenarios to measure the impact of potential change. Budget Management also helps you control expenses by establishing spend thresholds that can later trigger alerts based on actual performance.

Projects, Grants, and Endowments

By tracking transaction and budgeting data at the project level, you can monitor key initiatives with ease. Separate and report on activity for various projects, endowment, events, scholarships, investments, and other elements without exploding the number of accounts in your system. Projects, Grants, and Endowments allows you to keep pulse of activity right on the project record—without running reports—and create project-level budgets to keep all your initiatives on track. Finally, grant management tools help you reduce grant administration efforts, by allowing you to capture unlimited grant information, set deadlines, report across multiple fiscal periods, and even automate reimbursement billing.

Blackbaud SKY™ Reporting and Dashboards

SKY Reporting and Dashboards provides your staff with timely, actionable financial data. Use interactive transactional reports, personalized dashboards, and advanced analytical tools to generate board-ready reports in an instant, schedule email report updates, or drill into report details to analyze key metrics. SKY Reporting is the future of integrated business intelligence for nonprofits, designed to combine data insights across multiple Blackbaud solutions.

In addition, Financial Edge NXT takes advantage of classic Financial Edge concepts, like advanced filtering by virtually any data element, making it the fastest and most flexible reporting tool for managing dynamic funding requirements.

Working Capital Management

Accounts Payable

Make payments any way you want—by check, bank draft, direct disbursement, credit card, or electronic funds transfer (EFT). Accounts Payable makes paying bills easier while giving you the ability to meet changing payee requirements, maintain sound controls, and conduct analysis to properly manage your vendor relationships and liquidity. Accounts Payable combines with Purchasing, Expense Management, and Cash Management to provide your organization with a complete and efficient A/P workflow.

Accounts Receivable

Track individual clients, organizations, and funding sources. Accounts Receivable provides the ability to establish default payment responsibility for each client record, enabling you to bill a third party for a portion or all of a client's charges and services rendered. You can also apply one payment (whether cash, check, or credit card) to multiple client accounts and draft automatic payments from a specified bank account.

Cash Management

Manage multiple bank accounts and credit cards with advanced features to simplify payment adjustments, account activity, and reconciliation. For each account, you can view a register listing all deposits and disbursements, drilling down to view additional details. With Bank Feeds, you can automate your reconciliation process to ensure that you start balanced and stay balanced, improving your time-to-close. Cash Receipts functionality allows you to handle the small cash details that can clutter a ledger, such as postage meter money and vending machine revenue.

Purchasing and Employee Expense

Expense Management

Obtain an unprecedented view into how money is being spent within your organization by automating your full purchasing and employee expense processes in the cloud. Eliminate time-and-resource-consuming manual, paper-based processes, while ensuring that your organization's spending policies are applied and enforced via online workflows directly integrated with your accounting ledgers. In addition to aggregating your holistic view of organizational spend, Expense Management allows you to control decentralized spending, reduce administration time, and automate reconciliation processes.

Purchase Orders

Take advantage of a variety of options for recording purchases, tracking encumbrances, and generating invoices from receipts. You can track the complete order process, from the initial requisition through the entry and printing of purchase orders to the recording of merchandise when it arrives and the generation of accounts payable invoices.

Other Modules

Accounting Queue

Schedule a sequence of tasks that can be executed, one after the other, automatically and unattended. Using Accounting Queue is easy: simply add tasks to a queue and schedule it to run whenever you want, even overnight or during a weekend. Queue can automate tasks such as printing, emailing, importing, exporting, and posting various data in Financial Edge NXT.

Consolidation Management

Whether your organization is reporting on multiple chapters, foreign or domestic subsidiary offices, headquarters, or outreach operations, Consolidation Management automates the “roll up” of financial data, letting staff efficiently consolidate and report across different datasets with varying account structures, fiscal years, or currencies.

Fixed Assets

Store all the information your organization needs to properly track and manage your property, plant, and equipment. The solution calculates depreciation based on built-in IRS formulas or on custom depreciation schedules you enter to meet specific needs.

Payroll

Simplify your payroll administration and human resources procedures. Payroll makes your in-house payroll process a timely and cost-effective alternative to outsourcing. Designed to reflect current employment trends, this sophisticated, yet easy-to-use system accommodates incentives offered in today's workplace, such as flexible work schedules, complex benefits packages, and much more.

Open RESTful APIs

SKY API™

SKY API provides open, RESTful APIs, allowing for more customization, integration, and extended functionality—all protected by industry-standard authorization and authentication tools. **MEMORANDUM OF UNDERSTANDING
BETWEEN THE OMAHA-COUNCIL BLUFFS METROPOLITAN AREA PLANNING AGENCY
AND THE SOUTHEAST NEBRASKA DEVELOPMENT DISTRICT**

1. **Parties** This Memorandum of Understanding (hereinafter referred to as "MOU") is made and entered into by and between the Omaha-Council Bluffs Metropolitan Area Planning Agency (hereinafter referred to as "MAPA"), and the Southeast Nebraska Development District (hereinafter referred to as "SENDD").
2. **Purpose** The purpose of this MOU is to establish the terms and conditions under which Cass County will transition from SENDD to MAPA, upon approval by the State of Nebraska.
3. **Background** The Cass County Board of Commissioners voted to pursue membership with MAPA in December 2016. In December 2017, after one year of discussion and consideration, the Cass County Board of Commissioners voted to formally begin the process of moving from SENDD to MAPA for its Economic Development District (EDD). In the 2018 Legislature, LB1019 was introduced that proposed to amend §13-1901 to move Cass County from Region 6 to Region 8. LB1019 was not passed into law. It is anticipated that a bill will be introduced in the upcoming Legislature similar to LB-1019 (2018) that proposes to move Cass County from Region 6 to Region 8 in §13-1901.
4. **Term of MOU** This MOU is effective upon the day and date signed and executed by the duly authorized representatives of the parties to this MOU. Implementation of the financial agreements below shall remain in full force and effect for in accord with the payment schedule outlined below under this agreement between MAPA and SENDD.
5. **Conditions of MOU** MAPA and SENDD agree to cooperate on the transition of Cass County from SENDD to MAPA. If and when the anticipated legislative bill described in Section 3 that proposes to move Cass County from Region 6 to Region 8 in §13-1901, SENDD agrees to not oppose the anticipated bill. Upon the approval of the aforementioned anticipated bill by the Governor and its becoming state law, MAPA will proceed with amending its Interlocal Agreement to include Cass County as a member of MAPA. Contingent upon adoption of said amendment to the MAPA Interlocal Agreement, MAPA and SENDD agree to the following:
 - a. All reasonable efforts will be made to complete the services to municipalities under contract currently with SENDD by a mutually acceptable arrangement between the Executive Directors of MAPA and SENDD.
 - b. Should a jurisdiction in Cass County wish to work with SENDD, the Executive Directors of MAPA and SENDD will discuss the situation and develop a solution in accord with the Nebraska Regional Officials Council (NROC) Code of Ethics.
 - c. MAPA will include Cass County in its next update of the Comprehensive Economic Development Strategy (CEDS). SENDD will share any relevant data or findings from its work on the CEDS.
 - d. SENDD will provide a letter of to the Economic Development Administration, with a copy to the Nebraska Department of Economic Development, stating its concurrence with the transition of Cass County from SENDD to MAPA.
 - e. MAPA will provide State Economic Development District (EDD) assistance funds to SENDD according to the schedule below, provided that such funding is appropriated by the State of Nebraska. Should less than \$500,000 be appropriated to EDDs, the amount paid by MAPA to SENDD will be decreased proportional to amount allocated by the State. For example, should the State allocate \$400,000 instead of \$500,000 in year 1, a 20% decrease, MAPA's payment to Cass County would also decrease by 20% to \$5,400. Should the State appropriate more than \$500,000 to EDDs, MAPA will not pay more than the amounts listed below.

Fiscal Year following amendment to 13-1901	Anticipated appropriation to all EDDs	Cass County portion based on \$500k total appropriation	Percent of Cass Co. Portion Paid to SENDD	Anticipated Payment from MAPA to SENDD
Year 1	\$500,000	\$6,750	100%	\$6,750*
Year 2	\$500,000	\$6,750	74%	\$5,000*
Year 3	\$500,000	\$6,750	37%	\$2,500*

* - Amounts have not been approved by the MAPA Board of Directors and are for discussion purposes only.

f. MAPA does not deem that it would be feasible for any other counties from the SENDD region to be included in MAPA, and makes a good faith pledge that no other counties would be accepted as members for the foreseeable future.

6. **Signatures** In witness whereof, the parties to this MOU, through their duly authorized representatives have executed this MOU on the days and dates set out below, and certify that they have read, understood, and agreed to the terms and conditions of this MOU as set forth herein.
