5310 SUBRECIPIENT REIMBURSEMENT REQUIREMENTS

Each request for reimbursement you send to MAPA under your agreement must include the items listed below. Additionally, please do not submit reimbursement requests that span June and July. MAPA's fiscal year ends on June 30 and requests that fall in two fiscal years make processing more difficult.

1.	The Subrecipient shall submit progress reports along with reimbursement requests. These reports must include:
	Ridership for the billing period as measured by one-way trips
	☐ Total number of trips provided to date for the project
	☐ Mileage log for the billing period
	☐ Total miles traveled to date for the project
2.	For <u>direct costs</u> incurred by Subrecipient (excluding payments made to subcontractors) reimbursement requests shall include the following additional information: Z Employee timesheets corresponding to Services,
	Detail of employee wages and fringe benefits which correspond to time worked, and
	Itemized receipts for any non-labor expenses (e.g. fuel or repair costs) if permitted by your agreement
	For indirect costs incurred by Subrecipient (if applicable to your agreement),

For <u>indirect costs</u> incurred by Subrecipient (if applicable to your agreement), reimbursement requests must include receipts or other documentation and the Subrecipient's approved indirect cost rate must be applied.

For <u>subcontracting costs</u> (if applicable to your agreement), Subrecipient shall provide to MPO all invoicing documentation provided to Subrecipient by the subcontractor. MPO reserves the right to require additional documentation to substantiate subcontractor performance.

Subrecipient shall attach and attest in writing for all reimbursement requests the following statement:

"I certify that the expenses itemized herein and requested for reimbursement are for Services performed in accordance with the underlying Agreement. I further certify that no other federal funds have been received or requested for these same Services, no insurance proceeds have been received or requested with respect to these same Services, and all sales revenue, if any, generated from these same Services has been itemized herein as a reduction to total eligible expenses. I recognize that if it is discovered that any of these Services have received duplicate funding from federal sources or insurance proceeds, or if any sales revenue has not been reported, then such duplicated or underreported funding must be repaid to MPO."

costs. If Landis Evans saw an issue with this arrangement it should have been raised at the time.

Landis Evans' position regarding Task 4.6, that the firm was asked to provide
presentation support in accordance with the agreed upon scope, is reasonable. The
scope states, "the City may request that one member of the Consultant team speak on
the plan (likely via video call) at the City Council public hearing, depending on the need
and availability of remaining scope hours on the project." No scope hours remained
specifically for Landis Evans, but MAPA is amenable to allowing Landis Evans to utilize
remaining hours from JEO and Big Muddy to complete this task as it was requested by
the City.

Utilizing its authority under Section 3 of Exhibit "D" of the Agreement (UK2204), MAPA approves a shift of funds from Subconsultants, JEO and Big Muddy, to Landis Evans to enable Landis Evans to complete the tasks approved hereinabove by this letter. Landis Evans shall be eligible for reimbursement of the costs of these additional tasks if incurred between March 1 and June 30, 2024. MAPA shall determine the total amount of the fund shift from Subconsultant(s) to Landis Evans based on MAPA's review and acceptance of invoices submitted. The total amount of the fund shift shall not exceed \$15,840.54.

Please be reminded that invoices are due within 60 days after the end of the month in which costs are incurred; and final invoicing is due no later than August 28, 2024.

Sincerely,

Carlos Morales

RE: Budget Shift from Subconsultant Underrun on Omaha Active Mobility Plan

On April 30, 2024 Althea McDavid of Landis Evans + Partners submitted a request to Court Barber for a transfer of remaining budget to them from their subcontractors. Their justification for this transfer was as follows:

- Task 3 of the scope stipulated a maximum 500-mile study network to be analyzed for this project, which was met. However, our hours were based on the assumption of 1 segment per mile in each direction. This equates to 2000 segments for this network. The segments analyzed for this project totaled 4,132 segments, more than double the anticipated amount.
- Tasks 2.2 and 2.3 of the scope accounted for 8 total TAC and CSC meetings. To date, we have attended 2 CSC meetings and 8 TAC meetings. While many of these were attended virtually to lower cost, we have prepared for, attended, and prepared documentation for two additional meetings.
- Task 4.6 of the scope indicates that the City will present the presentation prepared by Landis Evans to the City Council and Planning Board. We have been asked to present to the Mayor's Office and the Planning Board. As we do not have any scope hours for this, a transfer of fees would assist in covering the preparation for and attendance of these meetings.

MAPA has, in accordance with Section 6 of the agreement and Section 3 of Exhibit D of the agreement, reviewed the justification and has come to the following conclusions:

- Landis Evans' position regarding Task 3, that the work completed to analyze the study network went beyond initial assumptions, is reasonable and additional costs were incurred in delivering that portion of the scope.
- Landis Evans' position regarding Tasks 2.2 and 2.3 is not justified; MAPA's recollection of the discussion around meeting frequency is that all parties agreed to additional meetings so long as they were virtual and Landis Evans could save on transportation

Landis Evans Omaha AMP March Invoice - Budget Shift Invoice #1

Court Barber <cbarber@mapacog.org>

To: Natasha Barrett <nbarrett@mapacog.org>, Connie Viner <cviner@mapacog.org>

Natasha and Connie,

Landis Evans submitted their invoice for March, the first invoice they have submitted in expectation of MAPA allowing them to utilize their subconsultants' cost underrun. A few notes:

- On form 162 I asked them to reduce the Max Amount shown for each subconsultant by the appropriate amount, \$7,100.54 for Big Muddy and \$8,740 for JEO; they appear to have done so. Total = \$15,840 54
- Also on form 162 I asked them to make sure they do not show any additional fixed fee; they have zeroed it out for the calculation and are showing no additional fixed fee for this period, only the previously billed and total.
- . I notified them that the budget shift is still under NDOT review and that nothing will be paid until we have final approval.

Otherwise, everything looks like it lines up with the support they provided. Please proceed with your review of the invoice.

Hey Connie,

Please review the invoice below. This is for the full amount of our ROAM Little Steps Cleaner Air Marketing on Bike Docking Stations contract. The requested activities of this grant have been performed to our satisfaction as outlined below;

- 1. Installation of marketing materials on bike share stations COMPLETE
- Data will be received in December (at the end of this agreement) and again in July of next year. Transportation has an active data pipeline established with ROAM, and has received email confirmation that this data will be provided. We are comfortable with moving forward with payment.

Please let me know if there are any questions or aspects that would hold up processing of this invoice. I am hoping to get it in front of Finance in September.

971	36th Street Improvements from Cornhusker Road to N- 370 – Phase 1	Bellevue	The project completes the first of three phases between Cornhusker Road and Highway 370. To complete this southernmost phase, Bellevue will construct the four-lane median divided cross section and access control to Raynor Road. The roadway design will make the section safer for local traffic and vehicles moving through the corridor. The bridge elevation will be raised to meet current floodplain mapping standards. A 10-foot wide shared use path will be constructed on the west side of the road to connect with sidewalks on cross streets to Raynor Road where connection to West Papio Trail can be utilized for crossing Big Papio Creek.	This project is located along 36th Street in Bellevue from north of the intersection with Twin Creek Drive to south of the intersection with Raynor Drive.	Federal-Aid	\$17,496.00
974	Bennington Big Papio Trail	Bennington	Bennington plans to connect to the existing pedestrian trail along Bennington Road with two bridge under crossings that will bypass traffic at both 156th Street and Bennington Road. The under crossings will require grading, retaining walls, concrete and handrails. Alternate "at grade" safe crossings will be needed to account for times where there may be high water in the West Branch of the Big Papililon Creek. The trail will be located along the west Branch of the Big Papio Creek in Bennington. It will start at the existing trail on the northwest corner of the Bennington Road Bridge over the creek and under-cross Bennington Road under the bridge. The trail proceeds along the creek was the start of the Big Papio Creek in Bennington. Introduction

The Omaha-Council Bluffs Metropolitan Area Planning Agency ("MAPA") is the designated Metropolitan Planning Organization for the Omaha-Council Bluffs Transportation Management Area ("TMA"), an urbanized area with a population over 200,000. MAPA coordinates with local governments and stakeholders in Nebraska and lowa for regional transportation planning. MAPA, in collaboration with the City of Omaha, is developing a regional action plan, including a Vision Zero action plan aimed at eliminating traffic fatalities. This plan will cover MAPA's TMA, excluding unincorporated Pottawattamie County, which has a separate Local Road Safety Plan. The Comprehensive Safety Action Plan ("CSAP") developed by MAPA will align with Omaha's Vision Zero Plan, Pottawattamie County's Local Road Safety Plan, and incorporate safety activities from Nebraska and Iowa DOTs.

There is a strong public outreach component to CSAP development, particularly with regards to soliciting input from historically underserved communities. These communities within the TMA are located primarily in North Omaha, South Omaha, and Council Bluffs. Specific locations identified as Disadvantaged Communities using the USDOT Equitable Transportation Community ("ETC") Explorer are shown below in Figure 1.

One Omaha's mission is to empower people where they live through education, training, and engagement to develop thriving neighborhoods. Founded in 2021 as an independent 501(c)(3) non-profit, One Omaha values inclusive participation in community growth and is passionate about enhancing the quality of life in the Omaha-Council Bluffs metropolitan area. They address the lack of capacity in certain neighborhoods and help them gain greater control over their own development. One Omaha's impact builds human, technical, and conceptual skills to sustain civic and community efforts to achieve a resident-led vision for neighborhoods throughout our area.

By bringing this skill-set, an unwavering commitment to excellence and a true belief, both personally and professionally, in the goals of the CSAP, the One Omaha team is uniquely positioned to effectively manage and facilitate outreach in disadvantaged communities.

Scope of Work

Task 1 - Administrative Tasks

<u>Coordination Meetings:</u> One Omaha will meet with MAPA and the CSAP team as needed, up to a maximum of two (2) times per month, in-person or virtually, to discuss public outreach and progress of the CSAP. The total number of these meetings will not exceed six (6).

<u>Invoicing:</u> One Omaha will submit invoices to MAPA no more frequently than monthly. One Omaha understands and agrees that it will be paid by MAPA on a per-event basis. Invoices must be accompanied by a progress report.

<u>Progress Reporting:</u> One Omaha will provide progress reports that include the following information with each invoice:

Booth materials and activities, along with use instructions, will be provided by MAPA and the CSAP team. One Omaha will document engagement by recording the total number of individuals they interacted with at the event, the results, and input received from engagement activities, and taking photos of participation for each event. Other means of record may be requested by MAPA in writing following the signing of this agreement and agreement by both parties.

One Omaha anticipates it will attend the following events (including but not limited to):

One Omaha will schedule and attend a predetermined number of community presentations. Following each presentation, One Omaha will summarize in writing any and all comments received from the public. Presentations may be delivered to neighborhood alliances, Business Improvement Districts, and other groups or organizations located in disadvantaged communities within the study area. The presentations will be at least 15 minutes long, to include Q&A, and coordinated to occur during a groups' regularly scheduled meetings.

Presentation material will include the findings of the High-Injury Network and other CSAP deliverables, as well as participatory exercises to share the guiding principles

and evaluation metrics for the overall plan. They will be focused on identifying the needs and goals of the public and will involve discussion of possible safety topics, strategies, and impacts. One Omaha will directly facilitate these presentations and discussions. One Omaha will collect information including sign in sheets, participant comments, feedback, input, key discussion points, and photos of the event. For more information on what this engagement includes, refer to the "Equity Engagement Workplan" and "Outreach & Engagement Strategies" sections of the SS4A Community Engagement Plan (CEP) available on MAPA's website.

OMAHA-COUNCIL BLUFFS METROPOLITAN AREA PLANNING AGENCY RESOLUTION NUMBER 2025 - 04

WHEREAS, the members of the Omaha-Council Bluffs Metropolitan Area Planning Agency (MAPA) have been formally designated by their respective legislative bodies to act as the official representatives in planning matters of mutual concern; and,

WHEREAS, MAPA is the designated Metropolitan Planning Organization (MPO) for the Omaha-Council Bluffs Transportation Management Area (TMA); and,

WHEREAS, it is the responsibility of the MPO, in conjunction with the States, to certify that the transportation planning process complies with all applicable federal laws and regulations; and,

WHEREAS, MAPA's region contains communities that have been historically divided by transportation facilities, most notably the North Freeway, a six-lane divided road that has long served as a barrier in a predominantly Black neighborhood that experienced redlining and displacement as a result of the freeway's construction; and,

WHEREAS, MAPA has adopted an Equity Resolution recognizing that grave inequities persist and threaten our region's future vitality, likewise affirming the Agency's commitment to a more equitable and just region; and,

WHEREAS, MAPA recognizes the need for affordable housing, transit-oriented development, public health initiatives, and economic growth to be seamlessly integrated into the surrounding land use in order to restore connectivity for disadvantaged communities impacted by the North Freeway's construction; and

WHEREAS, the Reconnecting Communities Pilot (RCP) Discretionary Grant Program, established under the Infrastructure Investment and Jobs Act (IIJA), presents a significant opportunity to address infrastructure-related divisions within urban communities by reconnecting neighborhoods historically separated by transportation systems, with \$607 million allocated to the RCP from FY 2022 to 2026, and individual project planning grants available up to \$2 million; and,

WHEREAS, MAPA is seeking to apply for an RCP grant to specifically address the physical, social, and economic divides created by the North Freeway, particularly in the surrounding disadvantaged communities where transportation costs are disproportionately high and pedestrian fatalities are a significant concern, with a focus on reconnecting the affected community and restoring equitable access to essential resources, jobs, and opportunities; and,

WHEREAS, the proposed project will focus on reconnecting communities through enhanced community engagement, environmental planning, and conceptual and preliminary engineering, as well as identifying potential solutions to the Freeway's dividing properties; and therefore be it

RESOLVED, that MAPA approves the submission of a Reconnecting Communities Pilot
Program Grant application, with the intention of advancing community-driven transportation
solutions that align with regional and statewide goals.
